# PU1 PISTON SEAL

The **PU1 Piston Seal** is a uni-directional polyurethane Piston Seal with knife trimmed sealing lips for enhanced sealing performance. Typically used in a single acting cylinder application or two seals back-to-back in separate seal glands.

This is recommended for light to medium duty hydraulic cylinder applications requiring low temperature and high pressure.

## STANDARD MATERIALS

Material Code	Description	Color
P92E	Polyurethane	Royal Blue

\*Other material options are available upon request.

## FEATURES

- Pressures up to 5,000 PSI
- Low Temperature (-40°F)
- High Temperature (+250°F)
- Velocity up to 3 FPS
- Zero Drift Piston Seal
- Cost Effective
- Easy Installation
- Compact Design
